

The Fork Rhino

Lightweight! Easy To Mount! Easy To Store!

www.ForkRhino.com

Turn your forklift into the TOUGHEST, most VERSATILE moving machine in your warehouse!

SAVE TIME AND MONEY...

Use your forklift to move equipment with one simple-to-install tool!

Have you been moving equipment with one fork? This method often results in fork sag and uncontrolled fork swing often causing damage to the forklift and/or the equipment being moved. The Fork Rhino evenly spreads the load to both forks.

- 1/3 size of most trailer spotters
- 6" wide fork pockets
- New handle placement allows for tighter turning radius

Shipping Weight: 46 lbs.

NOT FOR HIGHWAY OR HIGH SPEED USE!
