

The Fork Rhino

Lightweight! Easy To Mount! Easy To Store!

www.ForkRhino.com

Turn your forklift into the **TOUGHEST**, most **VERSATILE** moving machine in your warehouse!

SAVE TIME AND MONEY...

Use your forklift to move equipment with one simple-to-install tool!

Have you been moving equipment with one fork? This method often results in fork sag and uncontrolled fork swing often causing damage to the forklift and/or the equipment being moved. The Fork Rhino evenly spreads the load to both forks.

- 1/3 size of most trailer spotters
- 6" wide fork pockets
- New handle placement allows for tighter turning radius

Shipping Weight: 46 lbs.

NOT FOR HIGHWAY OR HIGH SPEED USE!
